5th Wheel Lubricant

TECHNICAL DATA SHEET

BENEFITS

- Environmentally preferable to asphalt formulations
- Forms tacky, tenacious film
- Excellent adhesion to metal
- Excellent resistance to water washout
- Won't sling off or drip
- Heavy load carrying and extreme pressure performance

GENERAL INFORMATION

Based on proprietary technology resulting in a lubricant that does not use asphaltic materials. Lloyds 5th Wheel Lubricant provides excellent adhesion to metal surfaces in cold and hot temperatures. Tackiness allows it to stay in place. It provides a tough grease film to handle heavy loads. Provides water repellency and protects parts from rust corrosion.

TECHNICAL DATA

NLGI	#1.5
AGMA Grade	14R
Colour	White
Odour	Bland
Water Washout ASTM	<10
Rust Test ASTM D-174 3	Pass

5th Wheel Lubricant is available in these sizes:

Part # 41320 12 x 400 g aerosol

Proudly  Canadian
