

Air Motor Oil

TECHNICAL DATA SHEET

BENEFITS

- Repels air line moisture and water spray
- Improves air tool performance
- Lubricates, cleans and protects
- Health Canada CFIA listed
- Removes gummy deposits
- Inhibits rust
- Reduces replacement and maintenance costs
- Extends air tool life
- Contains corrosion inhibitors

GENERAL INFORMATION

Use on impact and ratchet wrenches, air nailers and staplers, hammers, sanders, shears, rock drills, all piston and rotary type air tools both automatic and industrial, tampers, riveters, drills and screwdrivers, etc. Contains metal treatment lubrication technology for increased lubricity and boundary film lubrication.

DIRECTIONS

Use in accordance with air tool manufacturer's instructions. Tools may need lubrication daily or depending on frequency of tool use.

TECHNICAL DATA

Specific Gravity 60F g/cm³: 0.945
 Vapour Pressure: < 0.810 psi
 Viscosity 40°C cts: 25.05
 API Gravity @60°F: 18.2

Air Motor Oil is available in these sizes:

Part # 62008	12 x 237 mL bottle	Part # 67020	1 x 20 L pail
Part # 62016	12 x 455 mL bottle	Part # 67045	1 x 205 L drum
Part # 62004	4 x 4 L jug
