# Non Fuming CONCRETE REMOVER

## Acid Based - Buffered

TECHNICAL DATA SHEET

### BENEFITS

- Good Foam. Helps ensure complete coverage of surfaces
- No fuming formulation
- Foam application helps reduce the hazards of misting
- Contains corrosion inhibitors to retard attack on base metals

### GENERAL INFORMATION

Efficiently and quickly removes portland cement, lime and concrete from metal equipment, machinery, metal transit forms, shovels and concrete mixers. Cleans old or new concrete.

Used by brick and stone masons, concrete hauling companies, highway paving contractors, concrete manufacturers, highway paving contractors, cleaning and maintenance companies.

### DIRECTIONS

Mixer Exterior: Dilute 1 part product to 3 to 6 parts water and apply to exterior of mixer. Allow 5 minute contact time and flush thoroughly with water. Heavy deposits may require a stronger solution or repeated application.

Mixer Interior: Dilute 1 part product to 5 to 10 parts water. Spray generous amount into mixer. Allow mixer to clean itself by running. Flush with plenty of water.

Metal equipment, machinery, transit forms and shovels: Use directions given for mixer exterior.

### TECHNICAL DATA

pH:	<1.0
Colour:	Dark red
Specific Gravity:	1.15
Fragrance:	Cherry
