## LX-10 – Multipurpose Heavy Duty Industrial Cleaner Degreaser

# TECHNICAL DATA SHEET

### BENEFITS

- High foaming
- Effective and very economical
- Cleans all surfaces
- Free rinsing
- Brush or brushless systems
- Biodegradable, Phosphate free, surfactant is 100% natural botanical source.
- High concentration equals high dilutions

### GENERAL INFORMATION

Xtreme Clean is a multipurpose heavy duty industrial cleaner degreaser. Suitable for Aeronautical, Automotive Dealerships, Carwash Facilities, Construction Equipment, Detail Facilities, Farming Equipment, Fleet Operations, Highway maintenance, Rail, Shipping, and Waste Management, interior/exterior boats and slips, cleaner/deck wash for offshore rigs, cleans and degreases oil/land rigs, platforms and drilling tools, felts and equipment in paper mills.

### APPLICATION

1. Brush or Brushless Tunnel Washing systems. Dilute up to 128:1 to 200:1. For maximum results, dilute and apply product with water heated between 49°C – 60°C (120° – 140°F). Will work in cold water. Recommended minimum dilution is 128:1. Dilute product and operate machinery according to the manufacturer's directions for use.
2. Pressure Wash Cleaning. Dilute up to 128:1. For maximum results, dilute and apply product with water heated between 49°C - 60°C (120° - 140°F). Will work with cold water. Dilute product, apply by spraying onto surface, allow 3 minutes contact time, brush if necessary, and high-pressure rinse clean, (a high-pressure/hot water spray is preferred but will work with cold water. Apply product working from the bottom upward to avoid streaking.
3. Manual Washing. Dilute 128:1. Dilute up to product, apply to surface with brush or mop. Allow 3 minutes contact time, brush soiled areas, high-pressure rinse clean with water.

### TECHNICAL DATA

Appearance:	Clear blue liquid
Odour:	No odour
pH:	10 – 12
Flashpoint:	None
%VOC:	0%

LX-10 is available in these sizes:

Part # 52510      1 x 1,000 L tote
