## Web Bond - Part # 91021

#### **SECTION 1: PRODUCT AND COMPANY IDENTIFICATION**

PRODUCT NAME: Web-bond PRODUCT USE: Adhesive spray

MANUFACTURER; Lloyds Laboratories Inc. SUPPLIER: Lloyds Laboratories Inc.

ADDRESS: 613 Neal Drive ADDRESS: 613 Neal Drive

Peterborough, Peterborough,
Ontario, Ontario,
K9K 6X7 K9K 6X7

**EMERGENCY #:** 1 800 361-6766 **EMERGENCY #:** 1 800 361-6766

#### **SECTION II: INFORMATION ON INGREDIENTS**

Ingredients	CAS#	Wt%	OSHA-TWA	ACGIH-TWA	LD <sub>50</sub>
Methylene Chloride	75-09-2	30-60	50 mg/m3	25 mg/m3	Not available
Propane /Isobutane blend	74-98-6/ 75-28-5	15-30%	Not available	Not available	Not available

#### **SECTION III: HAZARDOUS IDENTIFICATION**

Route of Entry: Eye, skin contact, ingestion.

**Potential Health Effects:** 

**Eye Contact:** May cause pain disproportionate to the level of irritation to the eye tissue. May

possibly cause eye burns.

Skin Contact: Brief contact may cause skin irritation with local redness. Repeated and

prolonged contact may cause burns. May cause drying and flaking of skin. In confined or poorly ventilated conditions vapour can readily accumulate and

In confined or poorly ventilated conditions vapour can readily accumulate and cause unconsciousness and death in severe cases. Dizziness may occur at 200 ppm and progressive higher levels nausea, drunkenness and over 1000 ppm

ppm and progressive higher levels nausea, drunkenness and over 1000 ppm unconsciousness and death. A single brief (minutes) inhalation exposure to levels above 6000 ppm per methylene chloride may be fatal immediately. Alcohol

consumed before or after exposure may increase adverse effects.

**Ingestion:**Very low toxicity if swallowed. Small amounts swallowed incidentally as a result of normal handling operations are not likely to cause injury. Swallowing larger

amounts may cause injury. Aspiration into the lungs may occur during ingestion or vomiting, resulting in rapid absorption and injury to other body systems.

Chronic Effects:

Carcinogenicity: Lab studies have shown the incidence of tumors in certain strains of mice and

rats. Other long term inhalation studies in rats failed to show tumorigenic response. Human data are limited and have not established an association

between methylene chloride exposure and cancer.

**Teratogenicity,** The ingredients in this product were found to be mutagenic.

Mutagenicity, In laboratory studies effects on reproduction have been seen only at levels that

**Reproductive Effects:** would be toxic to the mother.

**Skin:** Repeated or prolonged exposures to dilutions can cause drying, defatting and

### Web Bond - Part # 91021

dermatitis.

#### SECTION IV: FIRST AID MEASURES

**Eye Contact:** Immediately flush with water for 15 minutes. Holding eyelids open during flushing. If

irritation persists, repeat flushing and obtain medical attention immediately. **Skin Contact:** Flush with water. Remove contaminated clothing and launder before reuse. Move victim to fresh air. If conscious, have victim take deep, slow breaths. Seek Inhalation:

medical attention if symptoms persist.

DO NOT INDUCE VOMITING. Rinse mouth with water, then drink one glass of water. Ingestion:

Seek medical attention. Do not give anything to victim if unconscious or convulsing. Note to physician: Because rapid absorption may occur through the lungs if aspirated and cause systemic effects. If lavage is performed, suggest endotracheal and/or

esophageal control.

#### **SECTION V: FIRE FIGHTING MEASURES**

NFPA 30B Level 1 Aerosol. Flammability:

Flash Point Deg (C,TCC): <20°C (TCC).

Means of Extinction: Use water spray to keep fire exposed containers cool. Dry chemicals, carbon

dioxide. Fight fire from protected location or maximum possible distance.

Fire fighters should wear self contained breathing apparatus as for Special Fire Hazards:

surrounding fire. Aerosol product - containers may rocket or explode.

Not applicable. Autoignition Temperature: Flame Projection: 28.0 cm. Sensitivity to Static Not applicable.

Discharge:

**Unusual Fire and Explosion** 

Hazards:

**Hazardous Decomposition** 

Products:

Aerosol product - containers may rocket or explode.

Oxides of carbon, oxides of nitrogen.

#### SECTION VI: ACCIDENTAL RELEASE MEASURES

Leak and Spill Before attempting clean up, refer to the hazard data provided above. Small spills may be absorbed with non reactive absorbent and placed in suitable, covered, **Procedures:** 

labeled container. For large quantities, dispose of in accordance with local,

provincial/ state or federal regulations.

For large spills prevent from entering sewers and waterways. For large spills provide diking to prevent spreading. Dispose of by licensed waste disposal

company.

Material will sink in water.

#### **SECTION VII: HANDLING AND STORAGE**

KEEP OUT OF REACH OF CHILDREN. Storage Requirements:

### Web Bond - Part # 91021

Store in a dry, cool and well ventilated area. Protect from freezing.

#### SECTION VIII: EXPOSURE CONTROL/PERSONAL PROTECTION

Gloves: Use Viton or Nitrile gloves.

Eye Protection: If eye contact is possible chemical splash goggles are recommended.

Respiratory Protection: Not normally required if good ventilation is maintained and below the exposure

guidelines. In confined or poorly ventilated areas use an approved self contained

breathing apparatus.

Other Protective

**Engineering Controls:** 

Equipment:

As required by employer code. Eye bath, safety shower, protective clothing.

General ventilation normally required to maintain airborne levels below the exposure guidelines. Lethal concentrations may exist in areas with poor

ventilation.

#### **SECTION IX: PHYSICAL AND CHEMICAL PROPERTIES**

Boiling Point (deg	N.Av.	Specific Gravity (H <sub>2</sub> 0	Not	Evaporation Rate	Non
C):		= 1):	available	(water=1):	volatile
% Volatile (Wt%):	100 %	Solubility in water:	Insoluble	pH (as supplied):	Not
		-			applicable
Physical State:	Liquid	Viscosity:	Like water		
Appearance /	Clear liquid with solvent odour				
Odour:	•				

#### SECTION X: STABILITY AND REACTIVITY

Conditions for Chemical Instability: Stable under normal conditions. Excessive heat or contamination

could cause decomposition.

Incompatible Materials: Reducing agents, strong acids, strong caustics, iron and other

netals.

**Hazardous Decomposition Products:** Oxides of carbon, Oxides of Nitrogen when heated.

#### **SECTION XI: TOXICOLOGICAL INFORMATION**

LD 50 values for individual components see section II. Skin Sensitization (OECD Sec. 406) Non sensitizing.

#### **SECTION XII: ECOLOGICAL INFORMATION**

Not available.

### Web Bond - Part # 91021

#### SECTION XIII: DISPOSAL CONSIDERATIONS

Dispose of in accordance to all local, provincial/state and federal regulations. DO NOT dump into sewers, on the ground or any body of water.

#### **SECTION XIV: TRANSPORTATION**

T.D.G. Classification:

**D.O.T. Classification:** Please refer to Bill of lading for up to date shipping information.

#### **SECTION XV: REGULATORY INFORMATION**

**Occupational Health and Safety** 

Regulations: WHMIS Class: OSHA & WHMIS:

Class D1B Poisonous substance, D2A. B 5 Flammable aerosol. MSDS prepared pursuant to the Hazard Communication

Standard (CFR29.1920.1200) and Canadian WHMIS regulations.

Environmental Regulatory Lists: SARA – Section 313 (Toxic Chemical Release Reporting) 40 CFR 372: CERCLA – Section 102 (Reportable

Quantity) 40 CFR 302:

RCRA 40 CFR 261 (Subpart D): CLEAN WATER ACT – Section 311 (Reportable Qty) 40 CFR 116:

CLEAN AIR ACT - Section 312 (List of

Hazardous Pollutants) 40 CFR 63

(Subpart C):

National Pollutant Release Inventory: Methylene Chloride.

Toxic Substances Control Act (TSCA): All ingredients are registered on the Chemical Substances

Inventor

Canadian Domestic Substance List

(DSL):

Inventory.
All ingredients are registered on the DSL.

#### SECTION XVI: OTHER INFORMATION

Date:	April 15, 2016	Prepared By:	Technical Services	Telephone:	1 800 361-6766

Methylene Chloride.

#### Disclaimer:

Information for this material safety data sheet was obtained from sources considered technically accurate and reliable. While every effort has been made to ensure full disclosure of product hazards, in some cases data is not available and is so stated. Since conditions of actual product use are beyond the control of supplier, it is assumed that users of this material; have been fully trained according to the mandatory requirements of WHMIS. No warranty, expressed or implied, is made and supplier will not be liable for any losses, injuries for consequential damages, which may result from the use or reliance on any information contained in this form. If user requires independent information on ingredients in this or other material, we recommend contact with the
